

The Great Seal Legacy Study Pack

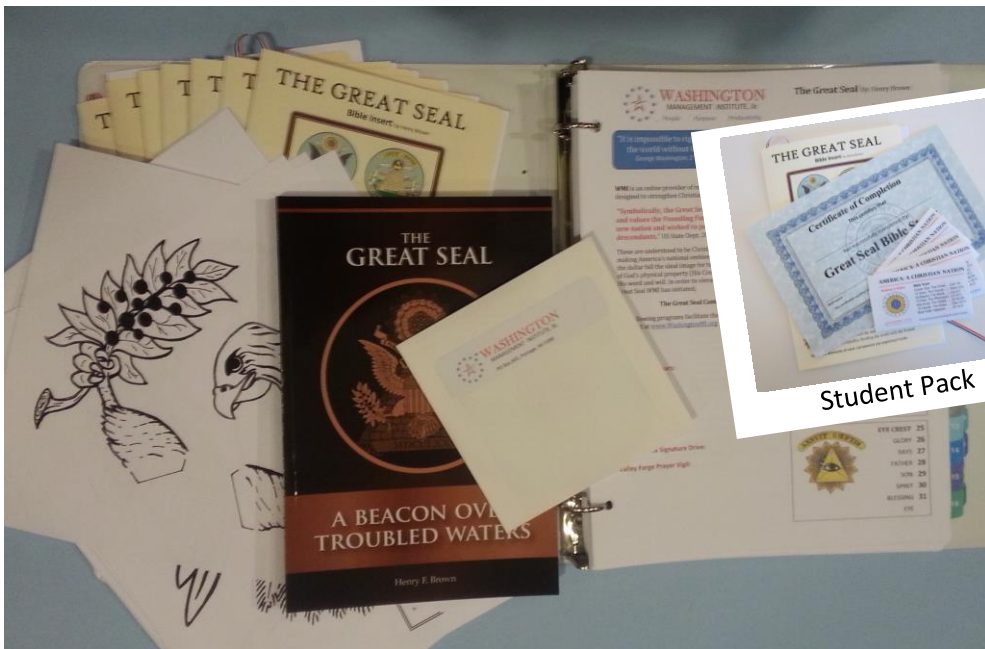

“Symbolically, the Great Seal reflects the beliefs and values the Founding Fathers attached to the new nation and wished to pass on to their descendants.” US State Dept. 2003

The Declaration of Independence embodies the worldview of America’s Founding Fathers. Minutes after signing that world changing declaration Congress commissioned the design of the new nation’s official emblem: the Great Seal of United States (a near likeness found on the back of the dollar bill). The design of the Great Seal was put in the care of the US State Department.

Over the last century secular revisionists have craftily removed reference of the Founding Father’s worldview from government, industry and academia. Many rightfully believe our nation is suffering as a result. The goal of Washington Management Institute and this study is to restore the worldview expressed by America’s founding generation.

“It is impossible to rightly govern [manage] the world without God and the Bible.”
George Washington, America’s 1st President and Father of the Nation

The Great Seal diagrams the beliefs and values of arguably the most productive generations in America's history. Their intent was to manage God's creation to God's glory...that God's will might be done on earth as it is in heaven; a shocking thought to 21st century America. The Great Seal Legacy Study examines each of the Great Seal’s 4 components and 28 elements (32 lessons) through the lens of their worldview; the Judeo-Christian biblical worldview. **Order yours today!**
